NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

Medicare Advantage Star Quality Ratings (“Star Ratings”)

Medicare Advantage (MA) plans must have a Star Rating of four Stars or greater to qualify for bonus payments. Approximately 73% of Cigna’s Medicare Advantage customers were in a four Star or greater plan with bonus payments received in 2019.

Medicare Advantage Risk Adjustment Validation (“RADV”) Audits

In 2012, CMS released a payment methodology that provided for sample audit error rates to be extrapolated to the entire MA contract after comparing audit results to a similar audit of Medicare Fee for Service (the “FFS Adjuster”), and applying the FFS Adjuster to established actuarial equivalency in payment rates as required by the Medicare statute. However, a methodology to calculate the FFS Adjuster was not finalized and CMS has, to date, not completed any RADV audits using extrapolations.

In 2018, CMS issued a proposed rule that included, among other things, extrapolation of the error rate related to audit findings without applying the FFS Adjuster. If adopted in its current form the rule could be detrimental to all MA insurers and affect the ability of plans to deliver high quality health care for the population served. It is uncertain if CMS will finalize the rule as proposed. Preliminary data validation for contract years 2011 through 2013 audits has been completed and the Company does not expect the impact of the rule, if adopted, to be material to its results of operations. Data validation for contract year 2014 audit is in process. If CMS adopts this rule, the Company cannot estimate the impact for contract year 2014 at this time.

Health Care Reform Act Taxes and Fees

Federal legislation suspended the health insurance industry tax for 2019 and the Company’s premium rates for 2019 reflect this suspension. Under current legislation, the tax is expected to return in 2020.

A. Accounting Practices

The financial statements of HealthSpring Life & Health Insurance Company, Inc. (the Company) are presented on the basis of accounting practices prescribed or permitted by the Texas Department of Insurance (the Department).

The Department recognizes only statutory accounting practices prescribed or permitted by the state of Texas for determining and reporting the financial condition and results of operations of a Health Maintenance Organization (HMO) for determining solvency under Texas Insurance Law. The National Association of Insurance Commissioners’ (the NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Texas. While the Department has adopted certain prescribed accounting practices that differ from those found in NAIC SAP, the Company’s financials were not affected by those differences in 2018 or 2017.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the Department is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates. The most significant item subject to estimates and assumptions is the actuarially determined medical claims liabilities included in the financial statements. Other significant estimates are the estimated risk adjustment payments receivable from CMS, certain amounts recorded related to the Medicare Part D (Part D) program, and unpaid claims adjustment expenses.

The Company estimates claims payable and liabilities for incurred but unreported claims by utilizing historical claims data and actuarially determined data, and adjusting the data by trend factors. Because actuarial information is utilized to project future liabilities, it is reasonably possible that the estimated liability may be adjusted in future periods upon receipt of more current information.

3. Each share of capital stock of HSAL (no par value) and HSTN (\$5 par value per share), whether issued, outstanding or held in treasury, was canceled upon the effectiveness of the merger. The outstanding capital stock of HSLH as of December 31, 2018, consists of 2,500,000 shares of common stock (\$1 par value per share).
4. As the mergers were effective on or before March 31, 2018, the pre-merger revenue, net income, and surplus and surplus adjustments for HSAL, HSTN and the Company are not presented. The Company had no loan-backed and structured securities with recognized other-than-temporary impairments where the Company had the intent to sell or does not have the intent and ability to retain the investment for a period of time sufficient to recover the amortized cost basis as of June 30, 2019.
3. The Company had no loan-backed and structured securities with recognized other-than-temporary impairments where the present value of cash flow expected to be collected is less than the amortized cost basis as of June 30, 2019.
4. As of June 30, 2019, there were no loan-backed and structured securities with a decline in fair value from amortized cost.
5. Management reviews loan-backed and other structured securities with a decline in fair value from cost for impairment based on criteria that include:
 - Length of time and severity of decline;
 - Financial and specific near term prospects of the issuer;
 - Changes in the regulatory, economic or general market environment of the issuer's industry or geographic region; and

- The Company’s intent to sell or the inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost.

Based on this review, management believes the unrealized depreciation on loan-backed securities to be temporary and, therefore, has not impaired these amounts.

- F. Management Services Agreement

Fee Sharing Agreement (the Agreement) - Several of Cigna’s subsidiaries are subject to the Health Insurance Providers Fee, “the Fee”, which is imposed on each covered entity engaged in the business of providing health insurance for any United States health risk. Such entities, along with Cigna, are collectively treated as a single “covered entity” as that term is defined in Section 9010(c) and Treas. Reg. § 57.2(b). By entering into this Agreement, each Party has consented to select Cigna as its “designated entity” for the payment of this Fee. The Agreement allows Cigna to pay each year to the Treasury the Fee owed collectively by all covered entities in the group, and to perform all necessary and appropriate actions that may be required to fulfill Cigna's responsibilities as the designated entity. This Agreement further allows Cigna to delegate to a wholly owned subsidiary the authority to perform these actions on Cigna's behalf. For financial management and reporting purposes, Cigna and the Parties will allocate the Fee for each Fee Year among the Parties in proportion to estimates of each Party’s Premiums for that Fee Year. This Agreement was submitted for Department approval/non-disapproval, and the Company’s participation in the Agreement became effective on August 11, 2014.

Cigna’s indirectly wholly-owned domestic subsidiary insurance companies have entered into a Consolidated Federal Income Tax Agreement (Tax Agreement), which became effective as of April 1, 1982. The Agreement sets forth the method of allocation of federal income taxes for Cigna and its wholly-owned domestic subsidiaries, including insurance subsidiaries. The Agreement provides for immediate reimbursement to companies with net operating losses to the extent that their losses are used to reduce consolidated taxable income; while those companies with current taxable income as calculated under federal separate return provisions, are liable for payment determined as if they had each filed a separate return. However, current credit is given for any foreign tax credit, operating loss or investment tax credit carryovers actually used in the current consolidated return. The Company participates as a party to the agreement and had \$1,819,961 payable and \$227,600 recoverable under the agreement as of June 30, 2019 and December 31, 2018, respectively.

With the exception of a limited number of expenses held at the corporate level such as expenses relating to investments, the servicing of debt, and stock compensation as calculated under SFAS No. 123R, all operating expenses of Cigna were allocated. These allocations were based on work effort studies and other appropriate

14. Liabilities, Contingencies and Assessments

A. Contingent Commitments – none.

B. Assessments

Guaranty Fund Assessments. Cigna and its subsidiaries (including the Company, and collectively known as Cigna) operates in a regulatory environment that may require its participation in assessments under state insurance guaranty association laws. Cigna’s exposure to assessments for certain obligations of insolvent insurance companies to policyholders and claimants is based on its share of business written in the relevant jurisdictions. There were no material impacts related to existing or new guaranty fund assessments for the six months ended June 30, 2019.

C. Gain Contingencies – none.

D. Claims-Related Extra Contractual Obligations – none.

E. Joint and Several Liabilities – none.

F. All Other Liabilities:

Litigation and Other Legal Matters:

Cigna and its subsidiaries (including the Company, and collectively known as Cigna) are routinely involved in numerous claims, lawsuits, regulatory audits, investigations and other legal matters arising, for the most part, in the ordinary course of managing a global health services business. Except for the specific matters noted below, Cigna believes that the legal actions, regulatory matters, proceedings and investigations currently pending against it should not have a material adverse effect on Cigna’s results of operations, financial condition or liquidity based upon our current knowledge and taking into consideration current accruals. Disputed tax matters arising from audits by the Internal Revenue Service (“IRS”) or other state and foreign jurisdictions, including those resulting in litigation, are accounted for under the NAIC’s accounting guidance for tax loss contingencies.

Pending litigation and legal or regulatory matters that Cigna has identified with a reasonably possible material loss are described below. When litigation and regulatory matters present loss contingencies that are both probable and estimable, Cigna accrues the estimated loss by a charge to shareholders’ net income. The estimated loss is Cigna’s best estimate of the probable loss at the time or an amount within a range of estimated losses reflecting the most likely outcome or the minimum amount of the range (if no amount is better than any other

estimated amount in the range.) Cigna provides disclosure in the aggregate for material pending litigation and legal or regulatory matters, including accruals, range of loss, or a statement that such information cannot be estimated. Due to numerous uncertain factors presented in these cases, it is not possible to estimate an aggregate range of loss (if any) for these matters at this time. In light of the uncertainties involved in these matters, there is no assurance that their ultimate resolution will not exceed the amounts currently accrued. An adverse outcome in one or more of these matters could be material to Cigna's results of operations, financial condition or liquidity for any particular period.

Cigna Litigation with Anthem. In February 2017, Cigna delivered a notice to Anthem terminating the 2015 merger agreement, and notifying Anthem that it must pay Cigna the \$1.85 billion reverse termination fee pursuant to the terms of the merger agreement. Also in February 2017, Cigna filed suit against Anthem in the Delaware Court of Chancery (the “Chancery Court”) seeking declaratory judgments that Cigna’s termination of the merger agreement was valid and that Anthem was not permitted to extend the termination date. The complaint also sought payment of the reverse termination fee and additional damages in an amount exceeding \$13 billion, including the lost premium value to Cigna’s shareholders caused by Anthem’s willful breaches of the merger agreement. Anthem has countersued alleging its own claims for damages.

On February 15, 2017, the Chancery Court granted Anthem’s motion for a temporary restraining order and temporarily enjoined Cigna from terminating the merger agreement. In May 2017, the Chancery Court denied Anthem’s motion for a preliminary injunction to enjoin Cigna from terminating the merger agreement but stayed its ruling pending Anthem’s determination as to whether to seek an appeal. Anthem subsequently notified Cigna and the Chancery Court that it did not intend to appeal the Chancery Court’s decision. As a result, the merger agreement was terminated.

The litigation between the parties remains pending. A trial was held during the first quarter of 2019. Oral arguments on post-trial briefs have been scheduled for November 2019 and Cigna expects the judge to issue a decision in the first quarter of 2020. Cigna believes in the merits of its claims and dispute Anthem’s claims, and Cigna intends to vigorously defend itself and pursue its claims.

Express Scripts Litigation with Anthem. In March 2016, Anthem filed a lawsuit in the United States District Court for the Southern District of New York alleging various breach of contract claims against Express Scripts relating to the parties’ rights and obligations under the periodic pricing review section of the pharmacy benefit management agreement between the parties, including allegations that Express Scripts failed to negotiate new pricing concessions in good faith, as well as various alleged service issues. Anthem also requested that the court enter declaratory judgment that Express Scripts is required to provide Anthem competitive benchmark pricing, that Anthem can terminate the agreement, and that Express Scripts is required to provide Anthem with post-termination services at competitive benchmark pricing for one year following any termination by Anthem. Anthem claims it is entitled to \$13 billion in additional pricing concessions over the remaining term of the agreement, as well as \$1.8 billion for one year following any contract termination by Anthem and \$150 million in damages for service issues (“Anthem’s Allegations”). On April 19, 2016, in response to Anthem’s complaint, Express Scripts filed its answer denying Anthem’s Allegations in their entirety and asserting affirmative defenses and counterclaims against Anthem. The court subsequently granted Anthem’s motion to dismiss two of six counts of Express Scripts’ amended counterclaims. The current scheduling order runs through the completion of summary judgment briefing in February 2020. There is no tentative trial date. Cigna believes in the merits of its claims and dispute Anthem’s claims, and Cigna intends to vigorously defend itself and pursue its claims.

Civil Investigative Demand. The U.S. Department of Justice (“DOJ”) is conducting an industry review of Medicare Advantage organizations’ risk adjustment practices under Medicare Parts C and D, including medical chart reviews and health exams. Cigna is currently responding to information requests (civil investigative demands) received from the DOJ (U.S. Attorney’s Offices for the Eastern District of Pennsylvania and the Southern District of New York). Cigna will continue to cooperate with the DOJ’s investigation.

Health Care Regulation. As a managed care organization, the Company’s operations are and will continue to be subject to pervasive federal, state, and local government regulation, which will have a material impact on our operations. The laws and regulations affecting our industry give state and federal regulatory authorities broad discretion in their exercise of supervisory, regulatory, and administrative powers. These laws and regulations are intended primarily for the benefit of members of and providers to the Company. Health care regulation in its various

forms could have an adverse effect on Company's health care operations if it inhibits the Company's ability to respond to market demands or results in increased medical or administrative costs without improving the quality of care or services.

20. Fair Value Measurements

A. Fair Value Measurements

Fair value is defined as the price at which an asset could be exchanged in an orderly transaction between market participants at the balance sheet date. The Company's financial assets have been classified based upon a hierarchy defined by SAP. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, a financial asset or liability carried at fair value would be classified in Level 3 if unobservable inputs were significant to the instrument's fair value, even though the measurement may be derived using inputs that are both observable (Levels 1 and 2) and unobservable (Level 3).

Level 1 Inputs for instruments classified in Level 1 include unadjusted quoted prices for identical assets in active markets accessible at the measurement date. Active markets provide pricing data for trades occurring at least weekly and include exchanges and dealer markets.

Level 2 Inputs for instruments classified in Level 2 include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are market observable or can be corroborated by market data for the term of the instrument. Such other inputs include market interest rates and volatilities,

spreads and yield curves. An instrument is classified in Level 2 if the Company determines that unobservable inputs are insignificant. Level 2 assets primarily include corporate bonds valued using recent trades of similar securities or pricing models that discount future cash flows at estimated market interest rates.

Level 3 Certain inputs for instruments classified in Level 3 are unobservable (supported by little or no market activity) and significant to their resulting fair value measurement. Unobservable inputs reflect the Company’s best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

SSAP 100 allows for the use of net asset value (NAV) as a practical expedient to fair value for investments in investment companies where there is no readily determinable fair value. There were no such investments owned by the Company for either period presented.

1. **Fair Value Measurements at Reporting Date** – The following tables provide information about the Company’s financial instruments carried at fair value as of June 30, 2019 and December 31, 2018.

Financial Assets at Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Net Asset Value (NAV)		Total
June 30, 2019						
Bonds	\$ -	\$ 17,831,034	\$ -	\$ -		\$ 17,831,034
December 31, 2018						
Bonds	\$ -	\$ 28,293,068	\$ -	\$ -		\$ 28,293,068

There were no significant transfers between Levels 1 and 2 as of June 30, 2019. Transfers between levels are assumed to occur at the beginning of the quarter in which they occur.

2. **Fair Value Measurements in Level 3 of the Fair Value Hierarchy**

The following table summarizes the changes in financial instruments classified in Level 3 for the three months and six months ended June 30, 2018. There were no Level 3 financial instruments for the three months and six months ended June 30, 2019. Gains and losses reported in this table may include net changes in fair value that are attributable to both observable and unobservable inputs.

For the Three Months Ended June 30, 2018										
Level 3 Financial Assets	Beg Bal 04/01/2018	Transfers into Level 3	Transfers out of Level 3	Total gains (losses) included in Net Income	Total gains (losses) included in Surplus	Purchases	Issuances	Sales	Settlements	Ending Balance 06/30/2018
Bonds	\$ 3,932,845	\$ -	\$ -	\$ (16,111)	\$ 13,115	\$ -	\$ -	\$ -	\$ -	\$ 3,929,849

For the Six Months Ended June 30, 2018										
Level 3 Financial Assets	Beg Balance 01/01/2018	Transfers into Level 3	Transfers out of Level 3	Total gains (losses) included in Surplus	Total gains (losses) included in Surplus	Purchases	Issuances	Sales	Settlements	Ending Balance 06/30/2018

3. **Level 3 Transfers**
Transfers into and out of Level 3 are reported as of the beginning of the quarter in which they occur. Transfers into or out of Level 3 occur when there is a change in the measurement basis in the period for lower-rated bonds valued at the lower of cost or fair value. Transfers into or out of Level 3 may also occur when observable inputs, such as the Company’s best estimate of what a market participant would use to determine a current transaction price, become more or less significant to the fair value measurement.

4. **Valuation Techniques and Inputs**
The Company estimates fair values using prices from third parties or internal pricing methods. Fair value estimates received from third-party pricing services are based on

reported trade activity and quoted market prices when available, and other market information that a market participant may use to estimate fair value. Such other inputs include market interest rates and volatilities, spreads, and yield curves. The internal pricing methods are performed by the Company’s investment professionals and generally involve using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality, as well as other qualitative factors. In instances where there is little or no market activity for the same or similar instruments, the fair value is estimated using methods, models, and assumptions that the Company believes a hypothetical market participant would use to determine a current transaction price.

B. Other Fair Value Disclosures

The Company provides additional fair value information in Notes 1 and 5.

C. Aggregate Fair Value of All Financial Instruments

The following table provides the fair value, carrying value, and classification in the fair value hierarchy of the Company’s financial instruments as of June 30, 2019 and December 31, 2018.

The following valuation methodologies and significant assumptions are used by the Company to determine fair value for each instrument.

Bonds

The methods and significant assumptions used to estimate the fair value of bonds are described in A4 above.

Cash, Cash Equivalents, and Short-Term Investments

Short-term investments, cash equivalents, and cash are carried at cost which approximates fair value. Short-term investments and cash equivalents are classified in Level 2, and cash is classified in Level 1.

22. Events Subsequent

Type I – Recognized Subsequent Events:

The Company is not aware of any Type I events that occurred subsequent to the close of the books or accounts for this statement which would have a material effect on the financial condition of the Company. In preparing these financial statements, the Company evaluated events that occurred between the balance sheet date and August 14, 2019 for the statutory statement filed on August 14, 2019.

Type II – Nonrecognized Subsequent Events:

Subsequent events have been considered between the balance sheet date and August 14, 2019 for the statutory statement filed on August 14, 2019.

On January 1, 2020, the Company will be subject to an annual fee under section 9010 of the ACA. Cigna covered entities’ share of the annual fee is based on the ratio of the amount of their aggregate net premiums written during the preceding calendar year to the amount of health insurance for any U.S. health risk that is written during the preceding year. A health insurance entity’s portion of the annual fee becomes payable once the entity provides health insurance for any U.S. Health risk for each calendar year beginning on or after January 1 of the year the fee is due. As of June 30, 2019, the Company has written health insurance subject to the ACA assessment, expects to conduct health insurance business in 2020 and estimates its portion of the annual health insurance industry fee to be \$36,766,219 payable on September 30, 2020. This amount is reflected in special surplus in accordance with SSAP No. 35R, *Guaranty Fund and Other Assessments*. This assessment is expected to impact risk based capital (RBC) by 27.7%. Reporting the ACA assessment as of June 30, 2019 would not have triggered an RBC action level.

D. Medical loss ratio rebates required pursuant to the Public Health Service Act

On January 1, 2014, the Company became subject to the minimum loss ratio rebate provisions of the Affordable Care Act (ACA). ACA require payment of premium rebates to customers covered under the Company's comprehensive medical insurance if certain annual minimum medical loss ratios are not met. At the close of each quarter, the Company records its rebate accrual based on year-to-date estimated medical loss ratios calculated as prescribed by the interim final rule issued by the Department of Health & Human Services using year-to-date premium and claim information by state and market segment. Since this accrual reflects the amount of rebate that would be payable based on year-to-date estimated medical loss ratios, the amount of rebate will fluctuate as actual claim experience develops each calendar quarter.

The Company accrued an estimated rebate of \$0 and \$134,322 as of June 30, 2019 and December 31, 2018, respectively.

			Small Group		Large Group	Other

(12)	Rebates unpaid net of reinsurance		XXX	XXX	XXX	XXX	\$ —

The Company also accrued an estimated rebate of \$0 and \$2,915,769 as of June 30, 2019 and December 31, 2018, respectively, related to its Medicaid contract in the state of Illinois which has different annual minimum medical loss ratios and medical loss ratio calculations. Since this accrual reflects the amount of rebate that would be payable based on year-to-date estimated medical ratios through June 30, 2020, the amount of the rebate will fluctuate as actual claim experience develops each calendar quarter.

E. Risk Sharing Provisions of the Affordable Care Act – the Company does not write business subject to the Risk Sharing Provisions of the Affordable Care Act.

25. Change in Incurred Claims and Claim Adjustment Expenses

The following table shows the liability for claims unpaid as of December 31, 2018 and amounts paid during the current year on these liabilities. Reserves remaining for prior years result from a re-estimation of unpaid claims and claim adjustment expenses and reflect a favorable/(unfavorable) development since December 31, 2018. This release is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims.
